

# INDEX.

## A.

- Abortion, death from induced, 209.  
Abscess, lumbar, perforating diaphragm, 13; of brain, 130, 194.  
Academy of Medicine, proceedings of, 12, 32, 66, 182, 214, 278, 296, 309, 344, 391.  
Acclimatization of human race, researches on, 166.  
Acetabulum, fracture of the, 260.  
Air-passages, removal of foreign bodies from, 25.  
Albany, correspondence from, 106; Medical College of, 16, 50.  
Albuminuria, case of convulsions in, 191.  
Alkaloid, new, in *cimicifuga racemosa*, 278.  
Amaurosis, nature and treatment of, 331.  
Ambulances, exhibition of new French, 362; of a corps for, 292.  
Amputation at the ankle-joint, 241; spontaneous at shoulder joint, 369.  
Aneurism, of aorta, 98, 416; popliteal, 261; treatment of, 246.  
Angina pectoris, cases of, with valvular disease, 146.  
Animals, cruelty to remonstrated against, 375.  
Ankle-joint, amputation at the, 241.  
Anti-galactics, definition and history of, 20.  
Anus, notice of Dr. Bodenhamer on malformations of, 357; spontaneous cure of artificial, 290; prolapsus of, 369.  
Anæsthetics in midwifery, 116; a new form of, 266.  
Aortic valves, insufficiency of the, 14.  
Aphonia, functional, lecture on, 75; anæsthetics in, 224.  
Appearances, autopsical, after internment, 225.  
Appendix vermiformis, ulceration of, 260.  
Appley, Dr. W. L., spontaneous amputation at shoulder, 369.  
Arm, spontaneous delivery in presentation of, 367.  
Army, medical department of, 258; notice of scurvy in, 147; regulations of, 277; dentistry in, 415.  
Arnold, Dr. E., case of arm presentation, 367.  
Arsenic, influences of fatty substances on, 12; poisoning by, 200.  
Arsenic-eating, remarks on, with cases, 167.  
Arteria innominata, case of ligature of the, 53.  
Artery, wound of occipital, 320.  
Association, N. Y. Sanitary, 48, 53; prison and reformatory, 53; transactions of American Medical, notice of, 133, 150, 307; transactions of Pharmaceutical, notice of, 166; Miami Valley, 228, 262; Thurber Medical, 250; New York Medical, 293, 298, 394.  
Atrophy from injury of the wrist-joint, 96.

## B.

- Batchelder, Dr. J. P., on morbus coxarius, 297.  
Barker, Dr. B. F., on the diseases of women, 55.  
Bauer, Dr. L. A., ankylosis of joints, 161, 209; excision of knee-joint, 247; treatment of morbus coxarius, 296, 345.  
Bedford, Dr. F., case of purpura, 337.  
Bedford, Dr. G. S., notice of work of, 102.  
Belladonna, as a lactic, 21; case of poisoning by, 224.  
Bellevue Hospital Medical College, remarks on, 323.  
Bellevue Hospital, award of prizes at, 197; medical board of, 330, 370, 385; reports of, 6, 60, 112, 130, 416.  
Bennett, Dr. E. P., operation for fistula, 160.  
Bennett, Dr. W. C., case of amputation, 271.  
Biography of Dr. Trowbridge, 347, 358.  
Boards of Health, notice of annual reports of, 213, 229.  
Bodenhamer, Dr. W., notice of work on anus, 357.  
Bone, case of reproduction of, 338.  
Blackwell, E. & E., on New York Infirmary, 152.  
Bradford, Dr. G. W., on a lunacy commission, 35.  
Brain, abscess of, 130; case of fibro-ulcerated tumor of, 408.  
Breast, removal of sero-cyst, 85; case of serous cyst of, 329.  
Bright's disease, unsuspected, 327.  
Brigham Hall, notice of asylum, 102.  
Brooklyn Medical and Surgical Institute, reports from, 161, 209.  
Brooklyn, report on health laws of, 167; annual report of health officer of, 169; correspondence from, 16.

- Brooklyn City Hospital, reports of, 44.  
Brown, Dr. J. B., report of case of deformity, 192.  
Browne, Dr. R. K., physiological experiment, 302.  
Buck, Dr. G., treatment of fractures, 214.  
Buffalo General Hospital, report from, 43.  
Buffalo Hospital of Sisters of Charity, report from, 99.  
Bullet Extractor, description of, 346.  
Bumstead, Dr. F. J., operation for glaucoma, 226.  
Burke, Dr. J., inefficacy of croton oil and tartar emetic as counter irritants, 302; mercurial ointment in small-pox, 281.  
Burns, cases treated with oil and cotton batting, 7; cicatrix from, 8; case of extensive, 305.  
Butler, Dr. W. H., disinterred body, 225; poisoning by belladonna, 224.

## C.

- Cæsarian section, report of a case of, 55.  
Calculus, renal, with fever, 79; removal of from urethra, 129.  
Calvarium, separation of by a burn, 182.  
Camplin, Dr. J. M., notice of work of, 116.  
Cancer of submaxillary region, 28; of pylorus, 200; epithelial of tongue, 376.  
Cannabis indica, therapeutical use of, 343, 375.  
Cannoniers, wounds peculiar to, 352.  
Caries, case of successful treatment of, 199.  
Carotid, ligation of common, 224; ligature of primitive, 320.  
Cartilage, removal of loose, from knee-joint, 383.  
Cartwright, Dr. S. S., remarks on pneumonia, 265.  
Castor oil leaves as galactagogue, 264.  
Catalogue, notice of pathological, 181.  
Cataract, treatment after operation, 228; methods of curing, 277.  
Catlin, Mr. G., notice of a work of, 294, 308.  
Caustic-holder, description of a new, 249.  
Cavities, examination of pulmonary, 222.  
Chest, cases of stab wounds of the, 403.  
Chisholm, Dr. J. J., cure of hernia, 79; surgical facts, 238.  
Chlorate of potash, fatal effects from, 53; in phthisis, 11, 231; observations on, 236; large doses of, 377; in variola, 409.  
Chloroform in strangulated hernia, 11; as a counter-irritant, 11; cause of death from, 116; attempted suicide by swallowing, 153; cause of fatal results from, 249.  
Church, Dr. W. H., on contraction of muscular fibres of uterus, 5; description and use of laryngoscope, 172.  
Clark, Dr. A., lumbar abscess, 13; insufficiency of aortic valves, 14; perforation of bowel, 49; lectures on diphtheria, 187, 203, 219, 235, 251, 267, 283; ulceration of appendix vermiformis, 260; Bright's disease, 327.  
Clavicle, compound fracture of, 177; fracture of, in child, 305.  
Cleveland, Dr. Wm. K., on treatment of morbus coxarius, 2.  
College of Physicians and Surgeons, clinics of, 28, 44, 81, 100.  
Columbia College, Dr. Torrey's donation to, 17.  
Commission, organization of the sanitary, 406.  
Conant, Dr. D. S., injury of spinal cord, 359; disease of undescended testicle, 360.  
Condyle, fracture of the external, 241.  
Conium, remarks on as a lactic, 21.  
Connecticut State Medical Society, meeting of, 362.  
Convention, quarantine, review of proceedings of, 47.  
Convulsions, nature and treatment of, 347.  
Cooper, Dr. E. S., on reproduction of maxilla, 120; ununited fracture, 337; excision of tibia, 353; of knee-joint, 368.  
Coroner, remarks on office of, 210; a New York, 216.  
Corson, Dr. W. C., small-pox in pregnant woman, 225.  
Cotton seed oil, preparation and use of, 375.  
County Medical Societies, legal status of, 9.  
Cranium, fracture and caries of, 305.  
Creasote, application of in diphtheria, 169.  
Crime in New York, remarks on, 46.  
Croton oil, as a counter-irritant, 312.  
Croup, tracheotomy, case of unsuccessful, 43.  
Cushman, Mr. A., castor oil leaves, 265.

Cyanosis in an adult person, 225.  
Cyst, case of hydatid, 376.  
Cystitis, case of, 100; injection of bladder for, 178.

## D.

Dalton, Dr. J. C., lectures on the physiology of the cranial nerves, 73, 91, 107, 123, 139, 155, 171; notice of physiology of, 373.  
Davis, Dr. H. G., treatment of morbus coxarius, 296.  
Deformity, remarkable cure of, 192.  
Delirium tremens in a puerperal woman, 112.  
Dengue, epidemic in Mississippi, 217.  
Dentistry, remarks on in the army, 415.  
Dentition and its derangements, lecture on, 395.  
Development, case of arrest of, 354.  
Diabetes, notice of Dr. Camplin's work on, 116.  
Diastasis of lower extremity of femur, 247.  
Dislocation of shoulder, reduction of, 100.  
Diphtheria in Vermont, 15; its history, causes, symptoms, treatment, 32; in Connecticut, 36; in Otsego County, N. Y., 52; local applications in, 68; in Maine, 69; in New Hampshire, 70; bromide of iodine in, 86; its treatment, 96, 103; in Iowa, 122; gargle for, 165; notice of Dr. Wynne's paper on, 166; creasote as a local application in, 169; in Alabama, 184; lectures on, 187, 203, 219, 235, 251, 267, 283.  
Dixon, Mr. James, notice of work of, 181.  
Drake, Dr. N. S., case of encephalitis, 59.  
Drug inspector, on the appointment of, 66.  
Dyspepsia, remarks on the treatment of, 28.  
Dyspnoea, remarks on treatment of, 206.

## E.

Ear, removal of foreign body from, 323.  
Echeverria, Dr. M. G., lectures on diseases of the nervous system, 299, 315, 331, 347; reflex paraplegia, 205, 262.  
Eclampsia, case of before labor, 320.  
Edinburgh, letter from, 16, 70, 88, 170, 186, 201, 250, 265, 282, 312, 329, 377, 409.  
Education, medical, report on, 104.  
Edwards, Dr. F. S., new caustic holder, 249; removal of nasopharyngeal polypus, 265.  
Elbow-joint, resection of, 183; caries of, 304.  
Elliot, Dr. G. T., on difficult obstetrical cases, 109, 125, 141, 189, 272, 289, 301, 397.  
Empysema with collapse of lung, 291.  
Empyema, case of, following parturition, 113.  
Encephalitis, case of circumscribed, 59.  
Enchondroma of lung, empyema, 85.  
Endocarditis, case of intra-uterine, 272.  
Epidemic in Virginia, report on, 120.  
Epidemiological record, 17, 36, 138, 378.  
Epilepsy, trephining in, 6; from depressed bone, 44; result of injuries, 44.  
Erysipelas, history, pathology, and treatment of, 399.  
Ether, alleged first use of, 266.  
Ethics, study of code of medical, 82; a new question in, 131.  
Exsection of head of femur, 85, 199; of os brachii, 100; of elbow, 183; of knee-joint, 277; of femur, 260; of tibia, 353; of knee-joint, 368.  
Eye, diseases of, notice of work, 181; infirmity, report of, 226; accommodation of to vision, 389.

## F.

Facial nerve, function of, 107; effects of section on taste, 302.  
Faradization in the cure of atrophy, 96.  
Females, diseases of, notice of works on, 102.  
Femur, diastasis of lower extremity, 247; new method of treating fractures of, 214; fracture of the, without shortening, 14; exsection of head, 85, 199.  
Fetter, Dr. D. F., on inhalation of nitrate of silver, 87, 200.  
Fever, typhoid, complicated with pneumonia, 48.  
Fingers, supernumerary, case of, 8.  
Finley, Dr. C. A., notice of appointment of, 405.  
Finnell, T. C., case of ununited fracture, 12; suicide by chloroform, 194; abortion, 200; poisoning by arsenic, 200.  
Fisher, Dr. H. N., cancer of pylorus, 200.  
Fistula, mode of healing of anal, 239; pulmonary, case of, 317; vesico-vaginal, operation for, 160.  
Flour, poisoning from lead in, 201.  
Flint, Dr. A., on diseases of the heart, 22, 41; on functional aphonia, 75; on pneumonia, 157; examination of pulmonary cavities, 222.

Foot, notice of Zacherie's work on, 166.  
Forceps in obstetrical practice, 141, 142, 143, 189, 190.  
Foreign bodies in air-passages, removal of, 25.  
Fountain, Dr. E. J., on treatment of placenta previa, 159; obituary of, 245.  
Francis, Dr. J. W., notice of death of, 116; obituary of, 149.  
Fracture, rapid union of, 6; in French hospitals, 15; ununited, 161, 337; compound of clavicle, 177, 305; of the skull, 321; disunited by gout, 183; of external condyle of humerus, 241; starch apparatus in treatment of, 130; extension in, 134, 141, 184, 263.  
Fœtus, case of fatty degeneration of the, 397.

## G.

Galactics, definition and history of, 19.  
Galactagogues, history of, 20; castor oil leaves as, 264.  
Gallic acid, therapeutic uses of, 246.  
Galt, Dr. G. A. D., on conical trephine, 152.  
Gardner, Dr. A. B., on lactatics, 19; uterine elevator, 217.  
Glaucoma, treatment of, 83; Hancock's operation for, 226.  
Glosso-pharyngeal nerve, function of, 123.  
Glycerine, preparation of solidified, 218.  
Gout, fracture disunited by, 183; treatment of, 418.  
Gross, Dr. S. D., notice of work on military surgery, 373.  
Gunshot wounds, lecture on, 334.  
Gutta serena, chloroformic solution of, 375.

## H.

Hæmorrhage, case of umbilical, 199; controlling of, 238.  
Hair, sudden change of color of, 265.  
Hallet, Dr. A., an internal hæmostatic, 240.  
Hamilton, Dr. F. H., military surgery, 269, 286; notice of work on military surgery, 373.  
Hammond, Dr. W. A., on chronic myelitis, 379.  
Hand-Book of hospital practice, by R. D. Lyons, review of, 10.  
Hare lip, case of, and operation for, 8.  
Health of New York, 63; of New England towns, 132.  
Heart, dilatation and softening of, 6; diseases of, 22, 41, 277.  
Hernia, radical cure of, 79; inguinal, 81; strangulated inguinal, 314; remarks on congenital, 239; two cases, 246.  
Hiccough, a new remedy for, 281.  
Homœopathy, fallacies of the system, 15.  
Hospitals, importance of village, 195; remarks on military, 306; remarks on nursing in, 386.  
Horr, Dr. A., on diphtheria in Iowa, 122.  
Hunt, Dr. J. W., urethral calculi, 129; New York coroner, 216.  
Hunter, Dr. B. P., diphtheria in Alabama, 185.  
Hutchison, Dr. J. C., ligature of carotid, 254; strangulated inguinal hernia, 319; removal of cartilage from knee-joint, 383.  
Hydrocephalus, chronic, enormous head, 66, 338.  
Hygiene, remarks on military, 339.  
Hymen, operation for imperforate, 109.  
Hypoglossal nerve, function of, 123.  
Hypophosphites of soda and lime in phthisis, 12.  
Hæmatemesis, persulphate of iron in, 274.

## I.

Illegitimacy, remarks on prevalence of, 260.  
Illegitimate, remarks on the crime against the, 387.  
Immigration, remarks on American, 164.  
Infirmity for women and children, 152.  
Insane, table of Institutions of, 72.  
Insanity, statistics of, in New York, 29.  
Intestines, perforation of, with stricture, 49.  
Invention, instrument for use of vapors, 311.  
Intussusception, case in a child, 319.  
Iodide of potassium as a lactate, 21.  
Iodine, bromide of, in diphtheria, 86.  
Iron, persulphate as an hæmostatic, 240; impurity of the citrate of, 250; pills of hydrogen, 375.  
Ischogalactics, definition and nature of, 20.  
Isham, Prof. R. N., case of laryngotomy, 25.

## J.

Jacobi, Dr. A., local applications in diphtheria, 68; on dentition and its derangements, 395.  
Jaw, removal of half of lower, 338.  
Joint, puncture of hip, 182.  
Jones, Dr. H. W., description of uterine retractor, 168, 265.  
Jordan, Dr. R. J., notice of work of, 181.

K.

Kidney, unsuspected disease of, 327; cancerous diseases of, 370.  
Kings County Medical Society, report of, 167.  
Knee-joint, case of peculiar affection of, 13; cases of diseases of, 26; total excision of, 247; exsection of, 368; removal of a loose cartilage from, 383.

L.

Lactatics, Gardner's lecture on, 19.  
Lactometer, its failure as a test, 259.  
Lalor, Wm., impurity of citrate of iron, 287.  
Language, delay in acquiring, 322.  
Laryngoscope, description and use of, 173.  
Laryngotomy, performed in tonsillitis, 25.  
Lawson, Dr. L. M., notice of work on phthisis, 407.  
Lee, Dr. C. A., on inversion of uterus, 122.  
Legal medicine, an important fact in, 160.  
Lemons, poisoning from eating, 178.  
Lemmon, Dr. R. T., on epidemic in Virginia, 122.  
Lente, Dr. F. D., on atrophy cured by faradization, 96; cure of certain forms of aphonia, 224; fistulous openings in chest, 317; peritonitis, 35, 31; large doses of chlorate of potash, 377.  
Life, breath of, notice of work on, 294, 308.  
Ligature of arteria innominata, 53; of common carotid artery, 224; of primitive carotid, 320.  
Lilly, Dr. H. M., lead in flower, 201.  
Lithotomy, case of, in a child, 213; case of, 178.  
Liver, case of cancer of, 85.  
Livingston, Dr. R. R., on diphtheria, 96.  
London, letter from, 377, 410.  
Long Island College Hospital, 7, 241, 257, 305, 322, 338, 354.  
Loomis, Dr. A. L., medical societies of New York, 233; degeneration of kidney, 262; case of pleurisy, 329.  
Lung, enchondroma of, with empyema, 85; punctured wound of, 304; case of penetrating wound of, 403.  
Lunacy, necessity of a commission of, 35; act creating, 211; remarks on the commission of, 376.  
Lyster, Dr. D. J., remedy for hiccough, 281.

M.

MacDonald, Dr. J. E., solidified glycerine, 218.  
Mania, cases of puerperal, 290.  
Marriage, result of consanguineous, 195.  
Maury, Dr. R. B., epidemic dengue, 218.  
Maxilla, reproduction of lower, 129; removal of half of lower, 338; inferior, necrosis of, 370.  
Meachem, John G., rapid union of fracture, 6.  
Measurement of limbs, instrument for, 183.  
Meat, alleged consumption of, 178.  
Medicine, notice of Paine's Institutes, 167; remarks on state, 274.  
Medico-legal investigations, compensation for, 362.  
Medical services, remarks on payment of, 227.  
Medical journals, on necessity of reading, 179.  
Medical Society of the State of New York, meeting of, 64; rules of, 87; proceedings of 103, 117, 136; remarks on, 114, 119, 137; officers of, 122; of Monroe County, N. Y., 408.  
Metcalf, Dr. J. T., on renal calculus, 49; on bromide of iodine in diphtheria, 86.  
Metritis, case of, treatment, 113; remarks on intra-cervical, 61.  
Mercer, Dr. A., ligature of carotid, 320.  
Microscopes, notice of American, 64.  
Milk, secretion of from axilla, 151; lactometer as a test of, 259.  
Minor, Dr. J. M., hospital report, 43; instrument for measuring limbs, 183.  
Mole, soft, enormous hypertrophy of, 28.  
Monroe County Medical Society, meeting of the, 408.  
Monstrosity, singular case of, 154.  
Morbus coxarius, treatment of, 2, 278; case of simulated, 130; discussion on, 391; lecture on, 411.  
Movement-cure, notice of Taylor on, 373.  
Moxa, account of the Japanese, 70.  
Muscle, rupture of rectus, 226.  
Myelitis, chronic, lecture on, 379.

N.

Nerves, physiology of the cranial, 73, 91, 107, 123, 139, 155; which excite flow of saliva, 302; trifacial, function of, 91; facial, 107; glosso-pharyngeal, 123; hypoglossal, 123; pneumogastric, 139, 155; spinal accessory, 171.  
Nervous system, diseases of the, 299, 315, 331, 347.  
New York Medical College, clinics of, 61, 113, 256.

New York Hospital, reports from, 177, 321, 423.  
New York Ophthalmic School, opening of, 18.  
Nitrate of silver, application of to uterus, 256; application to throat by inhalation, 87, 153, 200, 249.  
Noyes, Dr. H. D., on fibro-plastic tumor of eye, 48; report on ophthalmology, 83, 389.  
Nurses, remarks on use of wet, 101.  
Nursing, remarks on in army, 306.  
Nursery and Child's Hospital, reports of, 80, 291.  
Nævus, method of vaccination in, 117.

O.

Obstetrics, difficult cases in, 109, 125, 141, 189, 272, 289, 367, 381, 397.  
Offices, remarks on right men for, 404.  
Ohio State Medical Society, notice of, 181.  
Ophthalmia, iodide of potassium in, 246; treatment of gonorrhoeal, 117.  
Ophthalmic Hospital, commencement of, 149.  
O'Rielly, Dr. J., fracture disunited by gout, 183.  
Osborne, Dr. C. H., cure of artificial anus, 290.  
Ovariectomy, remarks on operation of, 257.  
Ovarian cyst in recto-vaginal space, 289.

P.

Paine, Dr. M., notice of institutes of, 166.  
Paraplegia, cases of reflex, 205; treatment of, 248; treatment reflex, 262; symptoms and diagnosis of, 302.  
Paralysis, reflex, lectures on, 315; of muscles of the eye, 322; of the face, 332; of the nerves of ear, 333; general, 333.  
Parker, Dr. W., case of peculiar affection of knee, 13; sero-cyst of breast, 329.  
Paronychia, effects of neglected, 200.  
Pathological Society, proceedings of, 13, 48, 85, 199, 231, 247, 260, 327, 359, 376, 408.  
Peaslee, Dr. E. R., effects of a burn, 183.  
Pendleton, Dr. J. E., poisoning by tansy, 177.  
Percy, Dr. S. R., on medico-legal science, 160; report on toxicology, 182; new alkaloid, 278; cause of fatal results from chloroform, 250.

 Shock, treatment of wounds after, 351.  
 Shoulder, reduction of dislocation of, 100.  
 Simrock, Dr. J., description of a pharyngoscope, 393.  
 Skin, diseases of, notice of work, 181.  
 Skull, trephining in depressed fracture of, 44; compound fracture of the, 321; fracture of base of, 321.  
 Small-pox, confluent in pregnant woman, 225; salivation from application of mercurials, in, 281.  
 Smith, Dr. D. P., letter from, 16, 51, 88, 170, 201, 250, 282, 313, 329, 377, 410.  
 Smith, Dr. A. H., treatment of dyspnoea, 206; use of persulphate of iron, 274.  
 Smith, Dr. S. H., chlorate of potash, 366.  
 Smith, Dr. F. N., case of monstrosity, 154.  
 Smith, Dr. J. L., on infantile erysipelas, 399.  
 Societies, medical, of New York, 233.  
 Spafford, Dr. E. W., diphtheria in Otsego county, N. Y., 52.  
 Speech, delay in acquiring, 322.  
 Spleen, on the functions of the, 354.  
 Spinal accessory nerve, function of, 171.  
 Squibb, Dr. E. R., on drug inspector, 68.  
 St. Vincent's Hospital, report from, 26, 103, 304.  
 St. Luke's Hospital, reports from, 98, 274.  
 Stenomatous tumor of face, 8; of ear, 8.  
 St-wart, Dr. C., on the use of pessaries, 24.  
 Sting-ray, wound inflicted by, 199.  
 Stomach, fibrous degeneration of, 231; perforating ulcer, 376.  
 Stramonium, poisonous effects of leaves of, 128.  
 Stricture of urethra, lectures on, 1.  
 Studley, Dr. W. H., on inhalation of nitrate of silver, 153, 249.  
 Subungual exostosis, case of, 8.  
 Sugar, production of in relation to fat, 151.  
 Suicide, attempt at with chloroform, 153, 307, 328.  
 Surgeon-general, general order of, 276.  
 Surgeons, regimental, list of passed, 314; expedients of military, 340; outfit of military, 361; qualifications of for army, 294.  
 Surgery, conservative, 286; lectures on military, 269; contributions to military, 351; notices of in war of 1812, 355; notices of Tripler's works on military, 373.  
 Sweat, Dr. Moses, diphtheria in Maine, 69.  
 Swift, Dr. F., erysipelas of navel, 329.  
 Swinburne, Dr. J., Albany medical college, 50; extension in fracture, 134, 143, 263.

## T.

- Talipes varus, case of, 8.  
 Tausy, poisoning by infusion of, 176.  
 Tartar emetic as a counter-irritant, 312.

- Taylor, Dr. C. F., notice of work on movement cure, 373.  
 Tendon, rupture of rectus femoris, 338.  
 Testicle, malignant disease of undescended, 360.  
 Testis, removal of concealed, 178; remarks on, 201.  
 Tetanus, idiopathic, 60; from lacerated wound, 61; from opening an abscess, 61; pathology of, 77, 93.  
 Thomas, Dr. T. G., on unavoidable parturient hemorrhage, 37.  
 Thompson, Dr., effects of paronychia, 200.  
 Thomson, Dr. W. H., on pathology of tetanus, 77, 93; reports of, 151, 166.  
 Tibia, ununited fracture of, 161; disease of extensive, 328; case of exsection of, 353.  
 Tinea, treatment by cupri carb., 282.  
 Titillopathy, a new treatment, 281.  
 Todd, Dr. H. C., cyanosis in an adult, 225.  
 Tompson, Dr. J. J., use of looped wire, 25.  
 Tongue, removal of whole of, 116; epithelial cancer of, 376.  
 Tonsils, excision of enlarged, 80.  
 Townsend, Dr. M. W., ununited fracture, 161.  
 Townsend, Dr. H., report on medical education, 104.  
 Toxicology, report on progress of, 182.  
 Tracheotomy in croup, unsuccessful, 43.  
 Trephine, conical, 87; reclamation of Dr. Gall, 152.  
 Trephining in epilepsy with Dr. Gall's trephine, 6; in depressed fracture of skull, 44.  
 Tripler, Dr. C. S., notice of military surgery, 373.  
 Trowbridge, Dr. A., on gun-shot wounds, 334; biography of, 341, 358.  
 Tubercles in lung, larynx, and brain, 274.  
 Tumor, encysted of scalp, 81; erectile of hip, 304; fibro-nucleated of brain, 408.  
 Turner, Dr. W. M., vomiting in pregnancy, 175.

## U.

- Ulcer, perforating of stomach, 376.  
 Umbilicus, erysipelas of, 329.  
 Umbilical hemorrhage, causes of, 199.  
 Ununited fracture, treatment of, 12; of os brachii, 337.  
 University Medical College, clinics of, 8, 45, 80, 100, 146, 178.  
 Uræmia, remarks on intoxication from, 214.  
 Urethra, lectures on stricture of, 1.  
 Urethra, cases of laceration of, 385.  
 Urine, variations in constituents of, 166.  
 Uterus, abnormal contraction of, 5; inversion of, 106, 169; remarks on, 117, 122; rupture of, 125, 126, 127.  
 Uterus, perforation of walls of with the hand, 231; fibroid degeneration of, 231.  
 Uterus, extrusion of, 382.  
 Uterine retractor, description of, 168; claims of originality in invention of, 217, 265.

## V.

- Vaccination, method of in nevus, 117.  
 Valves, congenital malformation of semi-lunar, 45.  
 Van Buren, W. H., lectures on stricture of urethra, 1.  
 Van Dyck, Dr. A., on inversion of uterus, 106.  
 Vanderpoel, Dr., on pericarditis, 105.  
 Vapors, new method of applying, 311.  
 Vedder, Dr. M. R., case of extra-uterine pregnancy, 384.  
 Veratrum viride, medical uses of, 198; in pneumonia, 224.  
 Vesico-vaginal fistula, operation for, 17.  
 Vomiting in pregnancy, cause of, 175.

## W.

- War, experiences in that of 1812.  
 Whaley, Dr. E. A., ankylosis of joints, 161, 209.  
 Willard, Dr. S. D., on delegates to State Medical Society, 87.  
 Willett, Dr. E. M., case of eclampsia, 320.  
 Women, diseases of, review of Hodge on, 30; lecture on, 55.  
 Wood, Dr. J. R., fracture of femur, 14; typhoid fever, 48; exsection of head of femur, 85; cyst of breast, 85; exsection of elbow, 183; disease of periosteum, 327; cancer of rectum, 328; morbus coxarius, 344.  
 Woodward, A. T., on diphtheria, 15.  
 Wound, gunshot of hand, 305.  
 Wounds, gunshot, 334; penetrating chest, 403.  
 Wynne, Dr. James, on diphtheria, 32, 166.

## Y.

- Yellow fever, contagiousness of, 262.

## Z.

- Zacherie, Dr. J., notice of work, 166.

## METEOROLOGY AND NECROLOGY OF THE WEEK IN THE CITY AND COUNTY OF NEW YORK.

From the 17th day of June to the 24th day of June, 1861.

Abstract of the Official Report.

**Deaths.**—Men, 59; women, 74; boys, 109; girls, 81—total, 353. Adults 163; children, 190; males, 198; females, 155; 4. Infants under two years of age, 141. Children reported of native parents, 10; foreign, 155.

Monday, July 1.	NEW YORK HOSPITAL, Dr. Peters, half-past 1 P.M. EYE INFIRMARY, Diseases of Eye, 12 M. BELLEVUE HOSPITAL, Dr. Loomis, half-past 1 P.M.
Tuesday, July 2.	NEW YORK HOSPITAL, Dr. Parker, half-past 1 P.M. EYE INFIRMARY, Diseases of Ear, 12 M. OPHTHALMIC HOSPITAL, Drs. Stephenson & Garrish, 1 P.M. ISLAND HOSPITAL, Dr. Sayre, 1 P.M.
Wednesday, July 3.	BELLEVUE HOSPITAL, Dr. Sayre. EYE INFIRMARY, Operations, 12 M. NEW YORK HOSPITAL, Dr. Bulkley, half-past 1 P.M. ACADEMY OF MEDICINE, 8 P.M.
Thursday, July 4.	OPHTHALMIC HOSPITAL, Drs. Stephenson & Garrish, 1 P.M. NEW YORK HOSPITAL, Dr. Peters, half-past 1 P.M. BELLEVUE HOSPITAL, Dr. Taylor, half-past 1 P.M.
Friday, July 5.	NEW YORK HOSPITAL, Dr. Parker, half-past 1 P.M. EYE INFIRMARY, Diseases of Eye, 12 M. OPHTHALMIC HOSPITAL, Drs. Stephenson & Garrish, 1 P.M.
Saturday, July 6.	NEW YORK HOSPITAL, Dr. Bulkley, half-past 1 P.M. EMIGRANTS' HOSP., WARD'S ISLAND, Dr. Carnochan, 3 P.M. EYE INFIRMARY, Diseases of Ear, 12 M. BROOKLYN CITY HOSPITAL, Dr. Hutchison, 12 M.

## SPECIAL NOTICES.

NEW YORK ACADEMY OF MEDICINE.—July 3, Dr. JOSEPH MARTIN will read a Paper on "the Mechanism and Treatment of Labors with Face Presentation."

## U. S. Navy Splints are now manufactured by WADE &amp; FORD, 85 Fulton street, New York.

Extract from Dr. F. H. Hamilton's late Treatise on Military Surgery, page 114.

These Splints, contrived and arranged by Doctors Bache and Squibb, of the Navy, constitute the most compact and serviceable set which we have ever seen, and might very well be adopted as a model for either Military, Naval, or Private practice.

## Medical Board.—Surgeon General's

OFFICE, June 20, 1861.—By direction of the Secretary of War, a Medical Board, to consist of Surgeon A. N. McLAIR, the Medical Director of the Department of Washington, Surgeon L. A. EDWARDS, and Assistant Surgeon T. M. GRITT, U. S. Army, will convene in this city to-morrow morning, at 10 o'clock, or as soon thereafter as practicable, for the examination of such applicants for the position of Surgeon for a Brigade as may be referred to it by the Secretary of War.

Appointments will be made from among those only who shall be examined and reported as fully qualified by said Board.

The sessions of the Board will be held at No. 170 Pennsylvania avenue (north side), between Seventeenth and Eighteenth streets.

C. A. FINLEY, Surgeon General.

## Vaccine Lymph.—The subscriber has,

during the past three years, supplied Lymph in quantities and in every form for the vaccination of Military Companies, entire Regiments, Operatives in large Factories, Navy Yards, &c., &c., besides smaller orders of Physicians to the amount of nearly eighteen hundred; having been for the last two years the principal source whence the profession throughout New England has been supplied.

Crusts, perfect, primary and unruptured, . . . \$1.00 each  
Capillary Tubes hermetically sealed, . . . 1.00 each  
Quill points—Lymph warranted to adhere, 12 for . . . 1.00

All Lymph sent is ABSOLUTELY WARRANTED—should perfect success fail to follow its use the money received will at once be returned on notification of failure.

A discount of forty per centum on Quill Points, when ordered to the amount of ten dollars or over. No discount whatever on crusts or tubes. Full references of the highest professional character. Commendatory extracts from correspondents' letters and further information generally, in a pamphlet which shall be sent, postage paid, on application to

HENEY A. MARTIN, M.D.  
Roxbury, Mass.

# E. & S. FOUGERA, PHARMACEUTISTS, No. 30 N. William st., N. York, and No. 169 Atlantic st., Brooklyn, GENERAL AGENTS FOR THE FOLLOWING PREPARATIONS:

AGENTS: T. METCALF & CO., BOSTON, MASS.; H. P. WAKELEE, SAN FRANCISCO, CALIFORNIA; E. L. MASSOT, ST. LOUIS, MO.; THOMPSON AND B K, BALTIMORE, MARYLAND, ETC., ETC.

To be had also from the first class Drug Stores.

## ALBESPEYRE'S BLISTERING TISSUE.

This Tissue is always reliable, being of a uniform strength and blistering in six hours. It is neat, handy, economical, and of a great convenience for Physicians (principally country Physicians), Pharmacutists, and Patients. Generally used in the civil practice; it is the only one employed in the active armies and hospitals of France.

ALBESPEYRE'S EPISPASTIC PAPER, is used for maintaining blisters, in preference to any drawing ointments.

## RAQUIN'S CAPSULES,

Approved by the French Academy of Medicine—Daily prescribed with success by the profession at large. These Capsules are superior to any similar preparations.

## GENEVOIX PURE OIL OF HORSE CHESNUTS.

This ANTI-GOUT preparation is among the numerous topical applications possessed by therapeutics, the best external remedy for Gout, Rheumatism, and NEURALGIA.

N.B. It is very important, in applying this oil, to rub gently on the inflamed part, till the skin is completely saturated with the oil.

E. GENEVOIX, Phen., 14 Rue des Beaux Arts, Paris.

## BLANCARD'S PILLS OF IODIDE OF IRON.

Every physician, every work of medicine, regards the Iodide of Iron as an excellent preparation, uniting the properties of both Iron and Iodine.

Each pill contains one grain of Iodide of Iron, the dose is two to four pills a day. None are genuine which have not a reactive silver seal attached to the lower part of the cork, &c., &c.

BLANCARD, Phen., No. 40 Rue Bonaparte, Paris.

## BONJEAN'S ERGOTINE & DRAGÉES OF ERGOTINE.

*Bonjean's Ergotine*, or purified Extract of Ergot, is the extractive principle of *Secale Cornutum*, minus its poisonous substance. In consequence, *Bonjean's Ergotine* may be given in doses proportionate to the danger of the case, without any risk for the life of the patient. The dose of *Bonjean's Ergotine* is from five to 10 grains, daily. One dragée (three grains) may be given, crushed, every two or three hours, in some grave cases of uterine hemorrhage.

LABELONYE, Phen., No. 19 Rue Bourbon, Villeneuve, Paris.

## QUEVENNE'S IRON AND DRAGÉES OF IRON BY HYDROGEN.

Physicians desirous to have a faithful article, will prescribe *Genuine Quevenne's Iron*, which is always uniform and reliable, and quite different from the commercial Iron by Hydrogen.

It comes in small bottles, with a tin spoon containing two grains of Iron, which is a dose. E. GENEVOIX, 14 Rue des Beaux Arts, Paris.

## LEBEL'S SAVONULES OF COPAIVA, &c., &c.

The unfriendly action of Copaiva on the stomach, causing nauseous eructations and gastric derangements, renders its continued employment often impossible. In Lebel's Savonules, the Balsam, by its saponification with an alkali, is modified in such a manner, that its digestion is easy and its absorption more ready, besides its elegant form and disguise under a coating of gluten, recovered by sugar as a dragée, neither offend the sight nor displease the palate.

## PIERLOT'S VALERIANATE OF AMMONIA, FOR NERVOUS AFFECTIONS.

This preparation is not at all like the one prepared by Apothecaries, after the formula published in the journals; its odor, its taste, and above all, its success, where the other one fails, will tell at once how different they are one from the other.

*Genuine Pierlot's Valerianate of Ammonia* is a most efficacious remedy in *Neuralgia*, *Epilepsy*, *Convulsions*, *Hysteria*, &c., &c.

Dose.—Two to three teaspoonfuls daily.

PIERLOT, Phen., 40 Rue Mazarine, Paris.

**E. & S. FOUGERA, Pharmacutists, New York and Brooklyn,**  
GENERAL AGENTS FOR THE ABOVE PREPARATIONS.

N.B. PHARMACEUTISTS AND WHOLESALE DRUGGISTS will find it to their advantage to send for our new Price Current, in which the prices of Imported French Medicinal Preparations are much reduced.

## BOUDAULT'S PEPSINE.

Successfully prescribed in *Dyspepsia*, *Gastralgia*, in slow and difficult digestion, in chronic diseases, and also to arrest vomiting during pregnancy.

Dose.—Fifteen grains in powder, two or three times a day, just before eating.

## LABELONYE'S GRANULES OF DIGITALIS,

Each Granule contains one-third of a grain of Hydro-alcoholic Extract of *Digitalis Purpurea*. This preparation is an excellent sedative, a powerful diuretic, and is perfectly acceptable to the stomach. They regulate well the *Pulsations of the Heart*, increase rapidly the urinary secretions, act remarkably well in the *Nervous Palpitations*, *Aneurisms*, and *Hyper-trophies of the Heart*, in various kinds of Dropsies, principally those symptomatic to the Heart.

Dose.—Four to ten Granules daily.

LABELONYE, Phen., 19 Rue Bourbon Villeneuve, Paris.

## FRUNEAU'S ASTHMATIC PAPER.

This paper contains a determined quantity of Nitrate of Potash, Belladonna, Hyosciamus, Stramonium, and it burns well, and its pleasant fumes near the patient, in a closed room, relieve immediately all oppressions.

FRUNEAU, Phen., NANTES, FRANCE.

## E. & S. FOUGERA'S COMPOUND DRAGÉES OF SANTONINE.

These Dragées compound of Santonine and Jalapine are at the same time vermifuge and purgative—being coated with sugar they are pleasant to take, even for children. Each Dragée contains half a grain Santonine and one-fifth of a grain of Jalapine, with chocolate and coated with sugar.

Dose.—Ten to twelve a day for an adult, repeated three days.

## GELIS & CONTÉ'S DRAGÉES OF LACTATE OF IRON.

Approved by the French Academy of Medicine.

The superiority of action of the *Lactate of Iron* is duly attributed to its perfect solubility in the gastric juice. It is daily prescribed for *Chlorosis*, *Whites*, *Amenorrhœa*, and general debility. Each Dragée contains one grain Lactate of Iron.

Dose.—Two to three, three times a day.

## PAULLINIA-FOURNIER.

Is daily administered as a tonic and principally for the nervous system, hence its advantageous application for *Neuralgia*, *Headache*, convulsions of the stomach, &c., &c. It is favorably spoken of by Drs. Trousseau, Pidoux, Grisolle, &c., &c. No. 28 Rue d'Anjou St. Honoré, Paris.

## E. & S. FOUGERA'S DRAGÉES AND SYRUP OF PYROPHOSPHATE OF IRON.

The efficacy of this new preparation, containing two important elements of our system, Iron and Phosphorus, is admitted by all Physicians who have employed it. Being borne easily by the most delicate stomachs, it agrees very well with young ladies; it is used with decided benefit in cases of general debility, *Anemia*, *Dyspepsia*, *Neuralgia*, and principally where a nervous tonic is indicated.

Doses.—Two to four Dragées, three times a day, or a dessert to a teaspoonful three times a day. For children in proportion.

## PERSONNE'S IODINISED OIL.

APPROVED BY THE FRENCH ACADEMY OF MEDICINE.

This Oil, containing Iodine in an elementary combination, is very much like sweet almond oil in its taste and color; it has great advantages over cod-liver oil, as it can be administered in smaller quantity and without disgust for the patient. Ricord says: that the cure, or at least some modification of the disease, have always been obtained quicker with *Personne's Iodinised Oil*, than with cod liver oil. This oil is used in the same cases as cod-liver oil. Dose.—A teaspoonful two or three times a day.

No. 19 Rue Bourbon Villeneuve, Paris.

GEORGE TIEMANN &amp; CO.

**Manufacturers of Surgical Instruments, &c.**

No. 63 CHATHAM STREET, NEW YORK.

**Vaccine Virus from the Cow—**

obtained by vaccinating kine.

Ten quills one dollar. Warranted once.

Address, EPHRAIM CUTTER, M.D.,  
WOBURN, MASS.**Physicians should use the American**  
SOLIDIFIED MILK, PREPARED NEAR AMENIA, IN  
DUTCHESS COUNTY, NEW YORK.

It is simply the richest milk EVAPORATED at a low temperature, and crystallized upon refined white sugar. The Report of Special Committees from the N. Y. ACADEMY OF MEDICINE, and the AMERICAN MEDICAL ASSOCIATION recommend it as invaluable in PHTHISIS, DIARRHŒA AND DYSENTERY, PERSISTENT VOMITING, AND IN THE DISEASES AND WEANING OF CHILDREN. It is the most NUTRITIOUS DIET known, and in consequence especially recommends itself in the sick room. It is WARRANTED TO KEEP FOR YEARS IN ANY CLIMATE, and is therefore indispensable for families travelling with children, officers of the army and navy, sea captains, and those living in hot climates.

For sale every where. For pamphlet and price list address

Delivered Free in New York.

HANBURY SMITH, M.D.

**Mathey-Caylus' Gluten Capsules.—**

The only ones admitted to the Universal Exhibition of Paris, 1855. These Capsules have met with the open and candid approval of all the most eminent physicians of France and England, by whom they have been and are extensively used in their hospital and private practice. Among these, we will only mention Drs. Cullerier, Ricord, Pucke, Physicians to the Venerable Hospital of Paris, "Hôpital du Midi;" Drs. Arthur Hill Hassall and Wm. Lane, of the Lock Hospital of London; also the *London Lancet* and *Medical Times*.

Since their introduction in America, they have been received with the most marked favor by the Physicians and Druggists who have tried them. They are acknowledged by every practitioner to be the best and the most reliable preparation of the kind now in use.

The following are the different kinds manufactured by Mathey-Caylus:

Pure Capsula,	Capsula, Cubebs, and Carbonate of
Capsula and Cubebs,	Iron,
Capsula and Citrate of Iron,	Capsula and Tannic Acid,
Capsula and Khatany,	Cubebs pure, or with Alum,
Capsula and Magnesia,	Venice Turpentine,
Capsula and Catechu,	Norway Tar,
Capsula, Cubebs, and Khatany,

Begg to inform the Faculty that he has received from Paris a fresh lot of

**Articulated Skeletons,**

And of various Osteological Subjects, which will be sold at the lowest possible prices.

**The original "Elixir of Calisaya**

BAIK."—This elegant and valuable medicinal preparation was introduced to the notice of the Faculty of this city in 1836, by J. Milhan, the sole Inventor and Manufacturer, at which date none of those numerous firms were in existence, who, rather than give a new name to a new article, have found it more convenient within a few years to appropriate the above extensively and favorably known title: it is therefore presumable that physicians in prescribing, as for over thirty years, have reference solely to the original article made by

J. MILHAN &amp; SON, Pharmacutists, 183 Broadway, N. Y.

J. M. & SON are sole agents for FRENCH ARTIFICIAL EYES, have always a large assortment on hand, and will furnish to order a single eye, of any desired pattern, in thirty days.

THE PUBLISHERS offer the following inducement to those who may have opportunities to obtain subscribers to the MEDICAL TIMES:—

For two new subscribers (\$6.00 being remitted), one copy of GREENHOW'S DIPHTHERIA will be sent free by mail.

For three new subscribers (\$9.00 being remitted), one copy of HAMILTON'S MILITARY SURGERY will be sent.

**TERMS OF THE AMERICAN MEDICAL TIMES.**

City and Canadian Subscribers, \$3.50 per annum, payable in advance.

Mail subscribers, \$3 per annum, payable in advance.

Remittances must accompany an order for the Journal.

The Publishers will not hold themselves responsible for the loss of moneys inclosed in unregistered letters.

There are two volumes a year, commencing on the 1st of January and July; but subscriptions may begin at any date.

Those who desire to have the series complete can be supplied with the back numbers at the original subscription price.

The last volume, nicely bound in cloth, may be had at the office, for \$1.75, and free by mail for \$2.15; cloth cases for binding may be had at the office for 25 cents, and free by mail for 34 cents.

\* THE MEDICAL TIMES is published every Saturday morning, and is transmitted direct by mail throughout every section of the country. As a medium for immediate communication with the medical profession of the United States, it offers unsurpassed facilities to those desiring to advertise Medical Colleges and Schools, late Works, Surgical Appliances, Instruments of every kind, Drugs and Medicines, etc., etc. The following terms of transient advertisements may be modified by special contract for permanent insertion:
